Dear Parents,

RE: Bringing Mobile Phones to School

1. Students are allowed to bring their mobile phones to school for usage after leaving school.
2. In order to avoid any disturbance in lessons and to ensure a good learning environment for students, the mobile phone should be kept in switched-off mode in school areas. Students are forbidden to use their mobile phone for any purposes in school.
3. The school reserves the right to confiscate the mobile phone if a student breaches the regulation, and the parent would be notified to collect the phone back from school latter.
4. Students should take the full responsibility of taking proper care of their own mobile phones. They should always carry them in their pockets to avoid the risk of loss.
5. The school also provides a wired phone outside the school office for students to contact their parents in case of emergency.

Thank you for your attention.

Yours faithfully,

Principal
